

## Template Price Increase Letter

The document below is a template letter for yard owners to issue to their clients in respect of any planned increases to their livery or service charges. The expected notice period for any such charges would be a minimum of 30 days. It is recommended to include in your livery contract a clause permitting annual price increases, or price increases when suitable notice is given. Best practice is to increase livery charges annually in line with inflation and/ or your own supplier increases.

To help you calculate your livery charges, there is also a document 'Livery Charges Calculation Sheet' which will help you accurately work out your costs and make any changes to your price structure accordingly.
